## SUPPORT ME, VOTE TRUMP

A lot of people are asking me, if they live in a red state or a blue state, should they still vote for me? What about swing states?

The answer is easy. No matter what state you live in, I urge you to vote for Donald Trump. The reason is that is the only way we can get me and everything I stand for into Washington DC and fulfill the mission that motivated my campaign.

### Here's what that means for you:

- In every state, if you support me and my vision of a government united around common goals, I encourage you to vote for President Trump.
- This isn't about splitting votes or sending mixed signals. It's about creating a united front that will carry us through these turbulent times and restore integrity to our government.

I am fully committed to this path. Any confusion or division at this stage could undermine the very progress we've fought for. And this means I need your financial support now more than ever.

We're thrilled to announce an unprecedented partnership with the Libertarian National Committee (LNC), revolutionizing the way you can support our campaign. This collaboration allows us to raise money on the same playing field that major establishment candidates have always enjoyed. The donation ceiling has increased significantly, with individuals now able to contribute more than ever before through joint fundraising efforts.

By joining forces with the LNC, we have significantly raised the threshold per individual by an additional \$121,300. The formation of the Joint Fundraising Committee also allows state parties that meet specific FEC requirements to collaborate, with each state adding an additional \$10,000 in donation capacity. One of the most remarkable aspects of this committee is its nonpartisan nature, enabling state parties from various non-establishment groups, including the Libertarian committees, the Reform Party in Florida, and other independent parties, to unite and support Mr. Kennedy's historic challenge to the two-party system.

This historic collaboration aims to shatter the two-party stranglehold and unite resources for the benefit of all Americans. Together, Kennedy Shanahan and the LNC are paving the way for a brighter, more inclusive future. Join us in making history!
